

HOLY HELPS

A WORK OF ART

“You created my inmost being; You knit me together in my mother's womb. I praise you because I am fearfully and wonderfully made; Your works are wonderful, I know that full well.” (Psalm 139:13,14)

In checking out the construction of the human body on the internet, I was overwhelmed by the wonders of its complexities. Here are some of them as listed:

Your body consists of 206 bones, wrapped with 650 muscles and seven miles of nerve fibers. Your eyes possess 100 million receptors, while your ears contain 24,000 fibers. Your heart beats 36,000,000 times every year and sends blood pumping through more than 60,000 miles of veins, arteries, and tubing.

Your brain contains 13,000,000,000 nerve cells. Picture the possible number of inter-connections in your brain this way: the number of atoms in the universe is 1 followed by 100 zeroes. The number of different patterns possible in your brain is 1 followed by over 800 zeros. And your unconscious brain database, that which your unconscious brain knows and stores, outweighs your conscious brain on an order exceeding 10 million to one.

Just some of the intricacies of the greatest work of art ever produced. No wonder that David said, ***“You created my inmost being”*** and, ***“I am fearfully and wonderfully made.”*** How will the abortionist be able to face the Artist?

We literally cannot imagine how remarkable we are – marvelous works of art from the hand of **The Artist!**
